Previous Positions

- 2018-2020 **Research Analyst**, Bruegel (Brussels), European Economic Policy.
 - I worked as a Research Analyst for the European think tank Bruegel. I co-authored and contributed to several projects related to Economic Complexity and green innovation, green industrial policy, digitalisation and labour markets, European public opinion, and urban inequalities. My responsibilities encompassed the design of advanced data collection methods, including scraping, browser automation, and the analysis of patent, survey, regional, and macroeconomic data. In this role, I conducted empirical research for academic and policy reports using panel data econometrics, network analysis, and Natural Language Processing. I have drafted academic articles, policy reports, and blog posts for the general public.
- 09-12 2016 **Research Intern**, Nomisma (Bologna), Real Estate Economics.
 - I carried out a research internship at the Italian Real-Estate think tank Nomisma. I have contributed to projects relating to data collection, and spatial data analysis (GDAL, geopandas, QGIS).
- 2015-2016 **Consultant**, ActionAid (Bologna), NGO.
 - I worked as a consultant for the NGO ActionAid. I contributed to the data collection and network analysis of public procurement contracts, in the context of anti-corruption initiatives following natural disasters.
